Are you taking on a subject leadership role or looking to specialise in computing? This pathway will support you to build the confidence and expertise to lead computing effectively in your primary school.

Participate in professional development

Complete one full day face-to-face, remote or online course, or a combination of short courses that amounts to 6+ hours of professional development.

Choose CPD right for you

- Leading primary computing – module 1
- Leading primary computing – module 2
- Assessment of primary computing
- Primary computing for all
- Implementing the Teach Computing Curriculum in your school
- Developing and supporting programming within your primary school
- Teaching primary computing through contexts
- Get started with the Teach Computing Curriculum
- Teaching computing systems and networks to 5–11 year olds
- Creating an Inclusive Classroom: Approaches to Supporting Learners with SEND in Computing
- Preparing for Ofsted in primary computing
- Online safety through primary computing
- Careers and enrichment in primary computing
- Physical computing with crumble
- Introduction to micro:bit in KS2
- Introduction to the Teach Computing Curriculum
- Assessing computational thinking in primary schools

Develop your teaching practice

- **Raise aspirations with a STEM Ambassador visit**
  Arrange a visit for your school to help pupils understand real-world applications of computing and raise their career aspirations through engaging activities.

- **Participate fully in an NCCE curriculum enrichment opportunity**
  Participate in a webinar or explore our partner enrichment resources to enable you to run an enrichment activity in your classroom.

- **Implement your professional development in the classroom and evaluate via the Impact Toolkit**
  Think about not only your actions but also collecting evidence of how the changes you make impact you, your colleagues, and your students.

- **Download and use the NCCE teaching and assessment resources in your classroom**
  Download and use a Teach Computing Curriculum resource, then reflect on how you used and adapted it in the classroom.

Develop computing in your community

- **Gain accreditation as a professional development leader**
  Explore what makes CPD effective and how its impact can be evaluated as well as the strategies and tools you’ll need when leading learning with adults.

- **Support other teachers and earn a STEM Community participation badge**
  You’ll earn points for your activities on the STEM Community. Your points add up, and over time you will be rewarded with badges in recognition of your activity and participation in the community.

- **Undertake the initial assessment of your school using Computing Quality Framework**
  Review your school's progress in developing an exemplary computing curriculum and work towards achieving the Computing Quality Mark.

- **Work with your local Computing Hub to develop a school-level action plan for professional development**
  Computing Hubs support school's in the area with their journey in developing the computing curriculum.

- **Lead your school into a Computing Cluster, and develop an action plan with a Cluster advisor**
  Join a group of 3-6 eligible schools, which receive targeted support in professional learning to make progress within the Computing Quality Framework over a 12-month period.

- **Join and present at your local Computing at School Community**
  CAS Communities are the hearts, hands, and minds of Computing at School activity across the UK. Join a local event and offer your insights, ideas and expertise to colleagues.
